Use the Genealogy Collection!

The library has an extensive collection of genealogical materials including local family histories, cemetery records, and other items of interest.

Our genealogy collection, located in the Fireplace Room and in the stacks, contains basic "how-to" books that can be checked out as well as non-circulating research material.

Three-ring notebooks contain clippings of birth, death and marriage notices from local newspapers, as well as cemetery records making the process easier for you.

The library has Boone newspapers on microfilm back to the 1880s; however, they are only partially indexed.

Our library's microfilm holdings include:
Newspapers from the area from 1857 to 2007 are on microfilm.

There is an index to the Microfilm The Newspaper Index 1886 - 1926 will give the name of the paper, date and page number.
